NOTES:

1. Special Compensation - Includes additional monthly "incentive" pay, per the firefighter and police union contracts, for each of many things, including speaking Spanish (police), getting a Political Science college degree (firefighters), longevity pay (1% per year awarded at specific milestones for firefighters), and for various types of training, licenses, and certifications, whether or not they are required, useful, or applicable for any individual union member's regular or special job assignment. As the Special Comp. column shows, Special Compensation can be **as high as \$71,717 per year or 69% of Regular Earnings for a firefighter union member** (e.g., Fire Captain Mark Schrantz), and **as high as \$51,171 per year or 55% of Regular Earnings for a police union member** (e.g., Police Sergeant Roger Stephenson).

2. Overtime - Hours are compensated at one and a half times the regular pay rate ("time and a half"), a practice abandoned long ago by many companies in the private sector, including aerospace and defense companies such as Raytheon Co. (legacy Hughes Aircraft Co.) in El Segundo, which has required as many as 20 hours per week of unpaid overtime from exempt professional employees on an ongoing basis, and has paid only regular straight-time hourly rates for overtime hours when authorized and budgeted. **Overtime pay can be as high as \$78,197 per year or 99.5% of Regular Earnings for a firefighter union member** (e.g., Firefighter Robert Flickinger).

3. Leave Payout - Includes vacation and sick leave hours, and executive leave hours for managers, that were cashed out in 2009. Firefighter and police union members are credited and allowed to accumulate, roll-over from year to year, and cash out huge numbers of vacation and sick leave hours each year and upon retirement. This practice of accumulating, rolling-over, and cashing out huge numbers of vacation and sick leave hours was abandoned long ago in the private sector. For example, Raytheon Co. (legacy Hughes Aircraft Co.) in El Segundo combined vacation with sick leave and renamed it Personal Time Off (PTO), reduced the number of PTO days credited each year, and allows only 40 hours to be rolled over to the next year. **Leave Payout can be as high as \$199,668 per year or 88% of Regular Earnings for a Police Officer** (e.g., Police Chief David Cummings).

4. Total Earnings - Is the total gross income paid to the employee in calendar year 2009. It is the sum of Regular Earnings, Special Compensation, Overtime, and Leave Payout.

5. Firefighters - Work 48 hour on-duty shifts, where they are **paid to sleep** for two 8 hour periods if they do not get any emergency calls, and are **on call** for two 8-hour periods. They are **off duty for 4 days after each shift**. El Segundo gets relatively **few emergency calls** per day, and most of them are paramedic calls. This work schedule gives firefighters **plenty of time off to work another job, run a business, or support City Council political campaigns in return for huge increases in pay, benefits, and pensions**. Also, the **four days off out of every six days** allows them to work much overtime, and to accumulate and roll-over huge numbers of vacation and sick leave hours and cash them out each year and upon retirement, further spiking their income.
